Product/Technology Wearable sensor remote monitor system						Company New Dimension Technology Co., Ltd.		
USP <i>Unique Selling Proposition</i> <input type="checkbox"/> A communication module that controls a BLE-equipped wearable sensor and sends the measurement results to the network <input type="checkbox"/> Software to manage transmitted results on a database						URL http://www.newdtech.com/ 		
 <p>2. 在宅等リモートモニター仕様</p> <p>生体センサー ・生体データ計測</p> <p>通信モジュール ・センサースキャン ・計測制御 ・通信監視(無線モジュール)</p> <p>3G/4G回線</p> <p>クラウドストレージ</p> <p>インターネット</p> <p>PCアプリ ・計測制御 ・ファイル記録 ・データ管理</p> <p>BLE</p>						Contact TEL: +81-266-82-2342 E-mail: gomi@newdtech.com		
						Address 4079-4 D202Nakagawara, Miyagawa, Chino-shi, Nagano-ken, 391-0013 Japan		
						Certification ISO : N/A PDMA (Class): None Certified STD. (Overseas): None		
Strength <input type="checkbox"/> Participation in a project to develop wearable sensors (heart rate, respiration and body movement) for a major company <input type="checkbox"/> Development of measurement and control software for the entire industry <input type="checkbox"/> Windows-compatible application development technology for BLE (Bluetooth Low Energy) sensors						Notes None
