Product/Technology Low loss optical fibers						Company deltafiber.jp, ltd. (ISHIHARA SANGYO Co., Ltd.)		
USP <i>Unique Selling Proposition</i> - Chording of optical fibers for communication and visible light and assembly for integration into devices. - Special processing such as TEC (Core Diffusion) processing, clad etching, tapering, etc. for miniaturization and development of unique products. Please use them for miniaturization and development of highly unique products. - Contract development and joint research are also available.						URL www.deltafiber.jp 		
  <p>Operating Wavelength:</p>						Contact TEL: +81-268-61-6300 E-mail: ask@deltafiber.jp		
Strength						Address 3533-154, Yaehara, Tomi-shi, Nagano-ken, 389-0406 Japan		
- Super low loss splicing of dissimilar fibers. - Clean room (Class 10000)						Certification ISO : N/A PDMA (Class): None Certified STD. (Overseas): None		
						Notes <Tokyo Office> 1-5-1 Chofu-gaoka, Chofu-shi, Tokyo West 11 in the University of Electro-Communications (Incubation Facility Room# 403)
